FIELD CASE REPORT

CASE# 2019-00044966

NARRATIVE

On November 12, 2019 at 1516 hours, the Division of Capitol Police was notified by Delegate Ibraheem Samirah that someone had posted a threatening message about him on Facebook. Delegate Samirah forwarded a screenshot of the post made on Facebook to Colonel Pike. The post was made by a Vicky Manning which stated "WOW! This, Virginians, is the future of our state. He wants abortion to be a cheap and easy part of your health insurance. He wants \$15 min wage which will kill small businesses. Pre-K for every child(government provided childcare-just what we need less parental involvement). I've been a Virginian all my life and this makes me weep. I'll be purchasing an arsenal over the next 2 months." At 1537 hours, I spoke to Delegate Samirah via phone and he asked what constitutes a direct threat which was explained. It was further explained to the delegate that a full criminal investigation will not be conducted because no crime was committed but open source resources including Facebook will be checked. The original Facebook post the delegate was concerned about was not found and a search for any threat was met with negative results. Attached is a copy of the Facebook post provided by Delegate Samirah.

On November 15, 2019, Assistant Special Agent in Charge Gulotta spoke to Vicky Manning via phone. Ms. Manning stated that there was nothing besides the post and she didn't mean any threat by it.
